thinlite

slim line luminaire

dimensions & photometrics

Thinlite 1x21W

description

Thinlite is a slim line luminaire with a highly efficient T5 fluorescent lamp.

It is suitable for any built-in areas which can hide the luminaire and allow the task or display areas to be illuminated.

Several fixtures can be joined together by a unique linking system. Embodied with excellent technology, the Thinlite gives off extremely low heat that makes for perfect lighting of heat sensitive items.
